The Western Globe Starts a Great Subscription Contest

The Western Globe this week commences the greatest subscription campaign ever attempted by a weekly newspaper in Alberta. We are going to give FREE to some lucky candidate a 1916 Chevrolet "Four-Ninety" Car.

We wish it to be distinctly understood that the Western Globe is alone in this contest, and that when we start anything we always go through with it.

As you all know, the Chevrolet is one of the most up-to-date cars on the market, having all the latest improvements, and some lucky candidate is going to receive it after a steady canvass of his or her friends.

Nomination coupons are printed in this issue (see advt. on another page), and when properly signed and sent into this office will be good for 5,000 votes for the candidate named.

Another coupon (a voting ballot), good for ten votes, is in each and every issue of The Western Globe, and when cut out, filled in, and mailed to this office, will be credited to the candidate named.

This contest is open to the citizens of Central Alberta, who reside in the Red Deer Electoral District.

Every vote received at this office will be deposited in a locked and sealed ballot box, and the managers of the three banks in Lacombe will count the votes and award the car.

The principal thing NOW is to get busy and have your candidate nominated, and then get busier still and win the car for him or her. A little steady work is all that is required to land the prize.

Don't get down-hearted if you do not have a million votes to your credit at the end of the first week or two, but remember that little story of the hare and the tortoise. It's the steady plodders that win oftenest.

Every candidate should read the page advt. in this issue over carefully. The value of subscriptions (both old and new) will be found on that page, together with other information.

The car may be seen at any time at Trimble & Garland's, the local agents. They will be pleased to demonstrate its many fine points to you. The cash price in Lacombe of the Chevrolet "Four-Ninety" is \$750.

Now, just a word to the candidates: Please mail all your subscriptions once a week so that we may enter the names on our mailing list and give the subscribers their paper regularly so that they, too, may follow the contest week by week. They may see it necessary to speak to their neighbor about subscribing for The Western Globe through you.

We don't care if you get a million subscriptions in the United States, but the U. S. price per year is \$1.50.

Please remember this—that \$750 is good pay for a few weeks steady work.

Don't put it off; send in your nomination TODAY, and let your friend get away to a good start. Subscription blanks, receipt books, and all things necessary for candidates will be furnished from this office.

Further particulars will be published each and every week.

Nominate your friend To-day as a candidate in The Western Globe's Great Subscription Campaign. Read the full-page advt. elsewhere in this issue.

BRITISH WOMEN**WORKING HARD**

London, May 7.—Addressing his constituents yesterday afternoon, David Lloyd George defended his demands for compulsion, the necessity for which he said arose last September.

Compulsion, the munitions minister said, simply meant that the country was organizing itself in an orderly, consistent, and resolute manner for war, which could not be run as a Sunday School treat. He declared it has never been said that Great Britain could raise as many men in proportion to population as France. This, he said, was impossible, as Great Britain supplied France and her other allies with steel, coal, material and munitions, and maintained the greatest

ARBOR DAY NOT A HOLIDAY

Arbor Day is not a school holiday this year. Arbor Day, which is the second Friday in May has always been a school holiday in Alberta, and not so many years ago was generally observed as a public holiday. The education department, however, has come to the wise conclusion that little headway is being made with arbor days in the schools with the children not at the schools. The schools, particularly in the afternoon, will devote the entire attention to tree planting, and bring up the grounds.

"A MAN AND HIS MATE"

It's a Reliance, and will be shown at the Rex tomorrow (Thursday) evening.

This is a great human drama of the drug evil, and the story of a woman's sacrifice and a man's salvation. It shows how a young college athlete, of high ideals and good birth, acquires the morphine habit and later a social outcast and physical wreck—finds his way into the Western wilds. Here, after many stirring adventures, he is mistaken for a horse-thief and about to be hung by an enraged mob of cowboys when a woman's wit saves him from a felon's death, and a woman's patience and skill cures him of his relentless appetite.

There are some big moments in the play, and the scenes are alive with action of the most satisfying kind.

The principal roles of the play are in the hands of Henry Woodruff and Gladys Brookwell, and they are assisted by a very large cast. See it at the Rex tomorrow (Thursday).

WHITE STAR LINER IS TORPEDOED BY THE GERMANS

London, May 8.—The 13,000-ton White Star liner Cyrric, which for some time has been engaged in freight service, has been torpedoed by a German submarine, according to advices received here, and sunk.

The Cyrric left New York on April 29 with an enormous cargo of war munitions. As she usually makes the voyage from New York to Liverpool in ten days she was therefore within a day or two of her destination. It is considered probable, in the absence of definite details, that the disaster to the Cyrric occurred off the west coast of Ireland.

"WHEN WE WERE TWENTY-ONE"

Daniel Frohman presents the popular, youthful star, William Elliott, in the celebrated dramatic success, "When We Were 21," in motion pictures (5 reels).

Mr. Elliott portrays the character of the "Imp," as young Richard Audaine, the central character of the play, is known.

Take a look over this cast that supports this bright young star, and then remember that it's a Famous Players' production and the house will again be crowded to its capacity.

Richard Audaine, "The Imp," William Elliott.

Dick Carew, Chas. Waldron.

"The Firefly," Marie Empress.

Phyllis, Helen Luttrell.

Peggy, Winifred Allen.

The Trinity—Arthur Hoops.

Chas. Coleman, Geo. Backus.

Mrs. Ericson, Mrs. Gordon.

To sum it up in a nut-shell, it is a fascinating film version of the famous "human" drama, "When We Were 21," Nat Goodwin's former starring vehicle, and you can see it at the Rex either Saturday or Monday next.

FEELING AGAINST KAISER SWEEPING GERMAN OPINION

London, May 8.—The Daily Chronicle's Amsterdam correspondent sends an account of a visit to Germany and Belgium just made by a neutral of high connection, who said:

"I was in Germany about three months ago when hope was high. Verdun had not brought its disillusionment. But now—I never could believe an entire national spirit could change so completely. There has been a veritable revolution in feeling and opinion. What astonished me more than anything else was the outbreak of feeling against the Kaiser. I could never have believed such a change possible in the German people. And not only the people. The same spirit of revolt shows itself among the others. The Kaiser, of course, has his bands of supporters, both in the army and among the people, and in this fact I sometimes thought I saw signs of civil strife, which is more and more threatening to rend Germany in twain. Very soon, unless I completely mistake the signs, it will be only pro-kaiser and anti-kaiser, and one side or the other will be driven out of sight."

"At present, owing to the unwillingness of the great majority to show their feelings openly, it appears the pro-kaiser party is the stronger, but once there is an open breach I believe the others will prove immeasurably more numerous and influential. If the universal and deep desire of the entire people has any power to make itself felt in the councils of Germany, then peace ought not to be far away."

"As for the condition of Belgium, what strikes one there is the dreadful scarcity of food. For three months the people of Brussels have scarcely seen a potato. I often wondered what was happening to the stores which the United States is sending for the Belgians. I did hear a story which gave me some idea of what is going on. It is the custom for the burgomasters of the smaller Belgian towns to send in a statement of the urgent requirements to headquarters at Brussels. When the supplies arrived in these small places there was of course a tremendous demand from the population, but I was assured that before the distribution to the public took place the officers of the German forces there had finished their pick. When they had finished there often was not much left for the famished people."

OFFICIALS WILL NOT DISCUSS IT

Rome, May 9.—Vatican officials Monday refused to make any definite statement concerning reports of a papal initiative to facilitate peace, either through the United States or otherwise. The officials pleaded ignorance when asked concerning the reports, saying that such measures would be dealt with exclusively by Pope Benedict and Cardinal Gasparri, the papal secretary of state, who keep their own counsel. They added that any reported action by the pontiff which did not receive official confirmation should be treated with caution.

ISSUES NEW ORDERS

London, May 9.—The German government has already issued new orders to the commanders of German submarines in accordance with the concession set forth in the reply to the American note, according to the Daily Telegraph's Rotterdam correspondent.

KNOW TOO MUCH TO BE FOOLED

Paris, May 9.—Desiring as he might to interview as mediator in the war, President Wilson knows that the present situation prevents all negotiations for peace, says the Journal des Debats. "The pretended advances of Von Bethmann-Hollweg are a gross snare for the government, and the United States people are too well informed to be misled by Germanic humbug. All peace talk is absolutely useless as well between the belligerents as between the United States and one of the belligerents in particular."

MUST REPORT IN ENGLAND FOR MILITARY DUTY

London, May 10.—All married Englishmen, eligible for military service, who are living abroad but who ordinarily are residents of Great Britain, must return to England forthwith and report for military duty.

This announcement was made in the House of Commons yesterday by Sir George Cave, the solicitor-general.

CASUALTY FIGURES NOT TO BE PUBLISHED

New York, May 9.—A London cable to the Sun says: Premier Asquith stated yesterday, in the House of Commons, that the government had abandoned, for military reasons, the practice of publishing the figures of the British casualties.

GEN. JULIAN BYNG TAKES COMMAND OF CANADIANS

Ottawa, May 9.—General Julian Byng has taken command of the Canadian army corps in France, it was officially announced tonight. General Alderson returns to England for duty. Major General David Watson, of Quebec, takes command of the Fourth Canadian division, in training in England.

Lockhart News

Now that the holocaust that overwhelmed Bentley has cooled and the smoke cleared away, we are able to view the wreckage. Bert Williams, in spite of his heavy loss, seems as happy as a clam at high water. The juveniles are delighted to know that the sweetie-shop was saved. The only person who seems downhearted is Dad Charlie Smith, who heard that Bert lost a large consignment of the famous sweet apple cider.

O. W. Johnson says Charlie Smith might have told him about that cider sooner, and he would have saved some of it from waste the week before the fire.

We are told Gavin has bought an up-to-date team of drivers. That looks like a good time coming for someone's sister. George Garries should now get after Gavin and soak him for a rubber-tired buggy.

Mr. and Mrs. Hance visited in these regions last Sunday. We are pleased to note that Mrs. Hance's wrist is progressing favorably after being treated in Lacombe.

What has happened to the Gilbert correspondent? Do coming events cast their shadow before? We have found the cause of the Bentley fire. On the Wednesday evening before the fire a mysterious stranger with large feet was seen skimming between P. Thorp's Garage and Birch's blacksmith shop. The alarm was immediately raised that a masked burglar had reached Bentley. Archie took the brush with his electric searchlight, determined to do or die. Seeing a form skulking through the poplars, he held his hand from his rusty gun, but let the marauder have it with rocks, when an "ouch" in Frank's well-known voice revealed another searcher. Bert did sentry duty on the main street and let off minute guns, but the burglar was still undiscovered. Then the phones and alarms were set going, and in the excitement some wires got crossed, which started a smoulder to be fanned to a flame by Thursday's wind.

We had the painful task of escorting Mr. Coggins on his way to the Grand Central Depot, Lacombe, on his departure from Alberta. Mr. Coggins says he is going to look for a cheaper place to live in than Alberta. We hope he does not, at his age, emulate the Wandering Jew.

An Explanation by C. W. Rutledge

Since it became known that the Farmers' Mutual Hail Insurance Association of Iowa had withdrawn from the Province, and would not carry any insurance in Alberta during the coming season, there have been a great many inquiries received from the members as to why this was done, and expressing surprise that such a step should have been taken when the farmers generally were so well pleased with the treatment they had received from the Company.

The explanation is this: When the Iowa Company came to Alberta two years ago they were required to place on deposit with the Provincial Government the sum of \$10,000.00, and they did this with the understanding that the Alberta Department was to assume this obligation as soon as possible. Then the next year the Legislature changed the required deposit to \$20,000.00, and also imposed another deposit of a percentage of the assessment levied, and these deposits were also made by the Iowa department, so they had on deposit here \$22,212.36. The Alberta business during both years was a losing proposition so that they were unable to assume any of this obligation.

The Provincial law also provides that when a certain amount of insurance is written the deposit shall be increased, and because our insurance was so popular and fair to the farmers we wrote a large amount of business, so that had we continued in business here during 1916 it would have been necessary to increase the deposit to about \$47,000.00. The Iowa department would have been willing to do this, but the Iowa Insurance Department claimed that they had no right to send the money belonging to the Iowa farmers out of the United States, and since this deposit would increase yearly as the company grew the directors agreed to withdraw from the Province.

In order that the Alberta farmers might still have the benefit of Mutual Insurance it was proposed by some of the men who had worked as agents for the Iowa Company that they organize an independent Alberta Company, and the directors of the Iowa Company agreed that if this could be done they would do what they could to have the Alberta business of their association reinsured with this new company. Therefore, a bill allowing such an organization was drawn up and presented at the last session of the Legislature where it was introduced by Mr. W. F. Puffer, legislator from Lacombe. The bill went through the various readings and committees without difficulty until it came to the Committee on Private Bills. On the presentation of the bill in this committee Mr. Puffer arose and gave a most thorough denunciation of the bill, and the men who had presented it. The merits of the bill he did not enter into, but centered his argument on the claim that some one had told him that I had made at one time statements that were pro-German and that he believed I was of pro-German sympathies.

He connected these statements with the passage of the bill through the fact that my name was on the bill as one of the provisional directors. Since I had then manager of the Iowa Company here, it had been thought best to have me as one of the provisional directors in order to facilitate the transfer of the business of the new company, but before it had been read in the house at all my name had been withdrawn and the name of another man placed in its stead. Mr. Puffer knew of this proposed change before it was ever made; he knew of it at the time it was made, and the original bill which is on file with the clerk of the house shows the change was made. How my name came to be on the bill is a mystery to everyone except the man who was responsible for having it printed there. The error in printing was explained to the committee, but they paid no attention to it, and after remarks by one or two of the other men it was voted to report the bill as not passed, the sentiment being that when a man had introduced a bill and then turned against it there was not much use of anyone else saying anything.

Of course we knew that the old line companies were desperately opposed to the passage of the bill, and that this was bound to influence the judgement of some of the legislators, and the men who were interested in the bill have their own ideas as to Mr. Puffer's change in sentiment, but since it is impossible to prove why a man changes his mind we would not wish to present these reasons to you. I do wish to say, however, that I was in no way interested in the proposed new association, and, in fact, the only way any man could be connected with it would have been by the vote of the members.

The result of Mr. Puffer's attack, which was entirely personal, was not its effect on me, but in reality he turned down the wishes of the 5,000 farmers who were already insured in the mutual company, as well as the thousands of others who had expressed their intention of joining the company this season. It is easy to forgive a politician for a personal attack on one man, but not so easy when that attack imposes a hardship on the thousands of men whom he is supposed to be acting for. Even under these conditions there might be some excuse, if he were sincere, as everyone makes mistakes, but while I am not sure that I could prove it legally, yet there can be no question in my mind at least that Mr. Puffer, in making the statement that I was pro-German, was making a statement which he, himself, did not believe. He was aware of the fact that my grandfather was a Canadian and a British subject; he also knew that my father and his brothers owned more than 5,000 acres of the best improved land in this part of Alberta, and therefore that the interests of the family were naturally with Alberta and Alberta's welfare. So far as I know there is not a particle of German blood in me, and not the slightest reason why I should be in sympathy with the Germans.

The main point, however, is this, that on the very day that my name was withdrawn from the bill of the proposed company I was admitted to the Parliament buildings by Mr. Puffer personally, and was shown through the building by him. In the legislative chamber he told the man in charge that I was his friend and was to have free access over the building. He finally left me in the library, at liberty to leave the building when I wished. After the destruction of the Government buildings at Ottawa, and the precautions that had been taken by the Alberta Government to guard against a repetition of such a disaster here, I consider that in his mind I must have been in no way of German sympathies.

You must draw your own conclusions as to why the bill was turned down, but the fact remains that the farmers are now compelled to take insurance in the stock companies. Of course you will have to pay more for the protection, but even at their high rate you cannot afford to go without it. Some of these old-line companies are entirely reliable, and if you are careful, and are willing to pay high for it, you can get good protection from them. Whenever a Mutual Hail Insurance Company is formed here I hope you will do all you can to make it a success. Assuming you that we appreciate your loyalty to the Iowa Company, and your help in making the insurance of that company so popular, I beg to remain, Sincerely yours,

C. W. RUTLEDGE,
Manager.

Bad Lands News

(Cum Grano Salis)
In the near future the sports of Bentley intend building a County Club House at the Palm Beach, Upper Horse Shoe Lake. A pack of hounds will be inaugurated to follow the wily coyote to his lair. There will also be the added attractions of fishing, duck and snipe shooting, boating and deer stalking in season. A fine golf course will be laid out on the H.B.C. section, with bunkers and other hazards. Gull Lake is becoming rather crowded, and the company is not always quite as select as might be desired. Thomas Coates will be appointed watchman, as the promoters are anxious to secure a man who will keep an eye on everything.

When the ship canal up the Rainy Creek is completed it will be possible to get an all-water route from the County Club House to London or Hong Kong.

"We should do our best to live in comfortable and happy surroundings," said Saul Langmaid. "That's a good idea," replied William Manning, "but it's impractical. If everybody were to move to Alberta our province would be overcrowded."

We hear some knotholes around Lockhart have got a rum or started that we have been trying to get the Lockhart P.O. closed. We are out to try and help everything for the good of the country, and have done what little we could to get the mail route continued to Wittenburg as at present, instead of having it changed to Eckville to Wittenburg. We have never done anything in any way to try to jeopardize the existence of Lockhart P.O. We also put in a word to have the office kept on at the old stand.

The Bad Lands budget is afflicted with no political party, and we don't intend to discuss politics as a rule. Our mission is to provide light reading for those who, like ourselves, are rather short on brains. We aren't foxy enough, smart enough, or crook-

ed enough, to try to follow the move of our politicians. Sometimes, however, it seems the duty of every man to get out and say something, and that time is now and until the next Provincial election. If there is a man in the wool party man, who has to vote Grit or Tory just because his father did so, and who will do it till he dies. These are the men who make the graft feel safe in his place. It is a painful fact, but the air of Canada does not seem conducive to honest, political and civic life. Any party, when too long in power, goes bad. Sir Willard and his party were simply putrid before the Conservatives got in, and that lapse of carriage has cost the country millions of dollars, on which we are now only paying the interest. The Rolin Government were in power until it became absolutely unbearable. The Saskatchewan Liberals seem to be a good second to the Conservative Manitoba outfit. The B.C. Conservatives have been in power so long that they are now among those of high rank and small. And right here at home we have got our bunch of grafters who seem in a position to give pointers to all North America. In their refusal to allow any investigation they admit that they have something to hide. The rank and file of the Liberal party who voted with their leaders are in the same position as the man who will be pulled for purchasing an article knowing it to be stolen. If the run of the Liberal members are honest and believe their party leaders so, why did they vote to prevent an investigation which could have revealed nothing? Is there other graft being carried on by the private members with the connivance of the heads, and so they are all in the same boat? We would like to get a record of some of the deals of our legislators; they might be illuminating and instructive. To our mind every Liberal member who voted to stifle an investigation of the graft charges should be turned down at the general election. However honest he may be personally, he is an aider and abettor of grafters.

One of our neighbors recently returned from a visit to Calgary. He says you can get rye whiskey for almost any old price there. The liquor men, he says, are busy unloading their stock before 1st July. Aren't they going to have any boot-legs in Calgary? If Alberta goes real dry it will be the first time we have lived in prohibition territory and couldn't get all we wanted to drink. The main trouble about the blind pig's milk is usually its quality, and you can't kick up a row when they dish up poor stuff, for you are keeping as well within the law in getting the drink as the other fellow in giving it.

Stranger—"I noticed your advertisement in the paper this morning for a man to retail imported canaries." Bird Store Owner—"Yes! I have you had any experience in that line?" Stranger—"Oh, no! I merely had a curiosity to know how the canaries lost their tails."

C.O.G.—"Minnie, my dear, do you know when you stop talking I feel that your silence is my paradoxical maximum pleasure."

Minnie—"What on earth do you mean?" C.O.G.—"Because at the same time you are also my Minnie mum."

The Bill Baillie who was hanged some time ago was no relation to the man who lives near Bentley. He was, however, a near relative of the Milton correspondent.

"Do you know where the little boys go who don't put their Sunday School money on the plate?" "Yes, sir, to the movies."

The man who named the matches we get to buy in this neck of the woods, "Home Match," knew what he was doing. They are sure "Home Matches"; the man who uses them has to stay home so as to have the stove handy to light them at.

Puffer—"Come, Jim, be lively and break the bones in Mr. Nickerson's chops and put Mr. Graham's ribs in the basket." Jim—"All right, sir, just as soon as I have sawed off Mr. Campbell's leg."

The longer we live in the country the more are we amazed at the vagaries taken by certain bucolic minds. Some of our YZ's have made the stupendous discovery that A. Urquhart & Co. are in the dairy business with the object of parting the industrious farmer from his hard-earned dollars. How they manage to arrive at this deduction is beyond our feeble mind to figure. As far as the patrons of the Lacombe creamery are concerned A. Urquhart & Co. have simply the pleasure of paying vouchers supplied them by G. A. Anderson. A. Urquhart & Co. have nothing to do with either the weighing or testing of the cream. So how Urquhart & Co. are to get in their funny work passes our comprehension. If some people were as clever

at detecting real criminals as they are at imputing dishonest motives, the R.N.W.M.P. would have a lot of their work simplified.

While on the subject of the Lacombe Creamery, we may say for the benefit of those who intend sending cream from these regions that the charge of delivery is 1 cent per lb. of butter fat.

Illustrating to a woman how to get off a street car an Indiana man fell and was fatally injured. Unfortunately, his late will be no warning to those who don't know that it is better to let women do things their own way.

Clarence Damron says he expects to go bald shortly. Our exposure of his carryings on with his Jesse girl in Lacombe have caused him so many hair combs that his crop of wool will soon give out. Try Rowland's Macassar Oil!

We note that your Bentley correspondent has some remarks about Consolidated Schools, and the desirability of one at Bentley. We believe the residents of Sunset Hill School District would be very glad to have one built in that district. It would be nice exercise for the Bentley children to come there, besides offering them chances of nature study. Joking apart, has the

Bentley correspondent had any experience of Consolidated Schools? We have. When we lived in Guelph Township, Ont., Sir W. McDonald (of tobacco fame) got the six school districts adjoining to consolidate for three years. He built the school and stood the deficit over and above the regular taxes paid heretofore by those districts. He felt confident that after three years trial those districts would stay with it. At the end of the three years the districts pulled out saving and excepting the district in which the school was built, and half of one district adjoining. Why? The parents found the long drive in the spring and fall, when the roads were bad, and in the cold of winter, told so against the health of the children as to militate any advantage in superior tuition.

News From All-Over

REDMOND CALLS FOR A MEETING OF IRISH PARTY

New York, May 8.—A special cablegram to the World, from London, says:

"Mr. Redmond has called what is described in his circular as a 'most important' meeting of the Irish party for Tuesday in the house of commons."

"There is a rumor in political circles tonight for which, however, no confirmation is obtainable, that the object of the meeting is to consider an arrangement provisionally arrived at between Redmond and Carson for the settlement of the Irish question."

"According to the rumor the basis of the proposed settlement is that all the Irish volunteers, including Carson's, be immediately disbanded, that compulsory service be extended to Ireland, and that home rule be put into operation forthwith."

"Members of the rank and file of the Irish party seen by the World correspondent tonight said they knew nothing of the rumored arrangement."

NO MORE APPETIZERS FOR FRENCH BOOZERS

Paris, May 8.—Two great anti-liquor meetings were held Sunday, one in the Sorbonne and the other at Rouen. Professor Paul Painlevé, minister of public instruction, was the principal speaker at the Sorbonne meeting. He said that the fight against liquor must be continued with the greatest energy.

Both meetings adopted resolutions urging parliament to pass measures to suppress the liquor traffic, notably by the prohibition of the manufacture and sale of so-called "appetizers" having alcohol as a base, and also preventing private distillers from marketing their output.

HALF A MILLION INDIAN TROOPS

Montreal, May 8.—That fully 500,000 Indian troops are now fighting for the Empire in the different campaigns was the statement made by Captain Morley, of the Indian Territory, to a correspondent on Saturday. Captain Morley has been active in military affairs in India since the opening of the war. He was aboard the Lusitania when she was torpedoed. He is in Montreal on a six months' leave of absence.

are in the region reported by Captain Bonifacio," said Captain Gaunt. "If those are really German raiders escaped from Kiel, they will have a short lease of life. Undoubtedly there will be great excitement in London when the news reaches there that German raiders are loose again. We will do everything possible to clear the ocean lanes quickly."

THAT PEACE TALK

Insofar as the subject at issue was concerned, reference to peace proposals in the German note to the United States was totally without excuse or reason. The issue between President Wilson and the Kaiser is over the submarine issue; reference to German proposals of peace as contained in the reply were there obviously for another reason altogether.

President Wilson evidently thinks so himself, for we are told he is now making a study of them. The Vatican seems to have somewhat the same idea, for we are told the pope has communicated with the president on the same subject. In Holland they have heard something along the same line, and are talking about it. Germany, it seems, wants peace, and would like to hear from the Allies through President Wilson or some other source.

Of course Germany would like peace, but only on her own terms, which are impossible. Nor does refusal on the part of the Allies to consider her proposals relieve her of the responsibility of continuing the war, as she suggests in her reply to the president. To negotiate peace terms with Germany while one single German soldier is on either Russian, Belgian or French soil would be for the Allies to admit that Germany had tested them. Under such conditions they would be suppliers for peace.

If Germany is so anxious for peace let her get back with her armed forces into her own country and free the lands she has been holding without any right other than that of might. Then, and not until then, could the Allies consider terms of any sort with dignity to themselves. Germany forced the issue in this war. The time and the methods were of her own choosing. She can have no just complaint to make if the nations which she so inhumanly attacked now insist upon bringing the issue to a

there a sensation was caused throughout the Old Country that eventually led to the exposing of many real German plots against Britain.

The company producing the play, which is a William A. Brady production, is backed by W. B. Sherman. This alone is a guarantee of the class of entertainment we may expect. Every member of the cast is an artist, thoroughly equipped for the playing of the spectacular drama.

James Guy-Disher, whose reputation extends all over Canada and the United States is playing the leading role. He is assisted by a company of players with whom he has been associated for a considerable time. They carry with them all equipment necessary for a proper production of the play. Lacombe playgoers can count on a performance such as has never been seen here before.

Coming at the present time, nothing could be more appropriate than this tense drama. The play contains the true British ring, and is bound to quicken the pulse of any with good British blood in their veins. Though characterized as a heavy drama, the situations of intense interest are so interspersed with comedy that the spectator will have no desire to drop interest during any second the play is in progress.

THE OWL SAYS

At the Rex not long ago a slide was flashed on the screen containing the following: "You have never seen a poor 'Reliance.'" The writer of that knew what he was talking about; they're good, and tonight's (Wednesday) will be no exception to the rule. See it.

A question which is very much under discussion now is: What attracts the boys to the abode of the orientals on Nanton St. on Sundays? Also: What would be the best remedy to have moving pictures at Sunday School or have Sunday School at Hop Chung's?

I was asked by a gentleman from the East if I thought that the Lacombe and Blindman Valley Railway would ever go through. I answered: "Maybe, but I doubt if we will ever live to enjoy it," and we are seventeen at this writing.

There is some talk of Henry Ford running for President of the U. S. A. Well, if that's the case, all I can say is that he

will make about as good a stab at that as he did in bringing about peace last Christmas. Well, anyway, his cars are rattling good ones. If Henry can run as well as his cars he'll be a sure winner.

While in Calgary a few days ago I met a man in the hotel who said he could tell the make of a car by the noise it made. He was taken up blindfolded and set before the hotel, and the cars started to pass. The first was a Chalmers, which he rightly guessed. The next was a Cadillac (not Bill's)—right again. And so on the cars sped by. At last the elevator boy thought he'd play a joke on the man, and let the elevator down with a crash—bang, buff, rattle, bang, buff, buff—and the gentleman yelled, "Ford, Ford."

"THE WHITE FEATHER"

Scene—Discovery of the German Wireless. At the Comet May 20.

BRITISH WILL TAKE CARE OF THESE RAIDERS

New York, May 9.—Captain Guy Gaunt, naval attaché of the British embassy at Washington, Monday, investigated the report that two German commerce raiders, accompanied by two submarines, are operating in the trans-Atlantic steamship lanes about 1,800 miles from New York. Captain Gaunt obtained from Captain Bonifacio of the Fabre line, a statement showing the exact latitude and longitude in which the two raiders were sighted. The naval attaché said he intended to wire at once to Halifax so that British cruisers now in American waters could be warned. The Canadian authorities at Ottawa also may be asked to take prompt action to guard transports.

"The White Feather," the play that has aroused the interest of the whole British Empire, is coming to Lacombe, and will be at the Comet on Saturday evening, May 20th.

No play has ever been written which so closely brings to light the workings of diplomatic plot. The German espionage system is here laid bare. The completeness of their plans and the wide scope of their operations are shown in a way that instills deeper thoughts into all who witness it.

It is the play that took London by storm under the name of "The Man Who Stayed at Home." On its presentation

Communication

To the Editor of the Western Globe:

Dear Sir,—Will you kindly allow space in your valuable paper for the following:

I have noticed a letter in the Lacombe Guardian, under date of April 21st, and presuming that your paper will reach more readers than the Guardian, I therefore request you to publish my reply. L. W. J. Fleming, of Morningside is not now a subscriber to your paper please mail him a copy of this issue at my expense.

The author of the letter referred to, for some reason, does not sign his name, and seems to be under the impression that I am unable to identify him. If that is the case he is a poor guesser. I have been reading his babbings in the Ponoka Herald for over a year, and have also heard his noise around town, and there can be no mistake; the comparison is identical. He is evidently trying to pick a personal quarrel with me, but in this again he is a failure. I have had the good fortune to read literature (wrongly called Socialism) for over two years, and as it is from this source he has got his education I consider where his pet names and references to my morals come from. He can keep on firing them; they can't hurt me, and when I come to think of it he and his rank and file are more to be pitied than laughed at. (Their Bible is the Appeal to Reason and other such publications, or (to use their own expression) "Papers and Pamphlets for the Education of Fools.")

This literature gives them pet names for all persons not of their own class, of which the following is a sample: "Any person or persons having enough wealth to keep them without working are called capitalists." Next comes the local merchants, editors, farmers, etc., who have a little wealth, but still have to work a little, are called boobies, or boob, rub, etc. Then comes the man who works faithfully for his day's wage; he is Henry Dub. Another common set name they have is "dam phool"; this seems to be a general-purpose word, and might it not be justly applied to all agitators of "so-called" Socialism? I say "so-called" because their motives and principles are a disgrace to the name they bear. The true meaning of the word Socialism is pertaining to Christianity. I am not professing religion for myself, but my belief is that Christianity is the doctrine taught by Jesus Christ that is handed to us in the Bible. Now, of what is so-called Socialism made up, and where did it originate? It is made up of anarchists, I. W. W.'s, infidels, spiritualists, Christian Science followers, etc., a great many of whom either they or their ancestors have been members of the Church of Rome, but have left it on account of oppression. Then, again, they have a lot of followers of all beliefs among the extreme poor. It is mostly among this latter class they do their missionary work. To these they send agitators or organizers, as they are called, and if the poor worker has a nickle left of his hard earnings the organizer takes it from him before he leaves. That is the way a lot of lazy lubbers in their ranks make a living.

The Socialists originated in Europe in the countries where the Church of Rome held supreme power, and their strongest organizations in America are kept up by Europeans, but the fat part of it goes to a few agitators. Here are a few of the expressions made by Socialists in Alberta, not a hundred miles from Lacombe. One said, "The only time I ever threw off my hat and jumped for joy was when I heard that President Roosevelt was shot." Another said, "President McKinley was the meanest man that ever lived." Others have said that Canada would be just as well off under German rule as the way it is.

A short time ago one of their organizers made a speech in a school-house not far from here. This was one of his remarks: "The Bible is a pack of lies not fit for a civilized person to read." He also spoke in favor of one of his fellow-agitators (who is now spending a 15-months term in Lethbridge pen. for sedition). The statement this man made was as follows: "The British nation has been stolen by force of arms. The German soldier is compelled by law to serve in the army; the British soldier is compelled to serve his country by the want of a meal ticket for his stomach." Some may say you cannot judge them all by the expressions of a few, but I have read their literature enough to know that the above statements, and the men who made them, are all backed up by it.

My friend admits he is a Socialist, and is evidently proud of it, but hesitates to admit that he is a Roman Catholic. Perhaps he has broke away from them, but I doubt it, and may say that I am sorry for him if he has, for he has simply left one evil and went to another. He says the Church of Rome is one of Socialism's bitterest enemies. I believe that in this he is correct, as true Socialism can only be brought about by preaching the doctrine taught by Jesus Christ and a study of the open Bible. This alone would be good reasons to oppose it. But, on the other hand, the body that is called Socialists are far from being what the name implies, but openly disregard Christianity; therefore, it must be an evil organization. It is quite natural that evil will oppose evil, and that both evils will oppose right. He speaks about my description of the Orange Association as hunch-back and bow-legged, but I know he is prejudiced, and I don't expect anything else from him. The Orange constitution is based on Christian principles, and its members are all supporters of Christian principles even if they (the members) are not all perfect. He has crawled on the statement that a Wm. J. Kirkland, Secretary of the Orange Order of Great Britain, is fighting in the trenches with the Germans. He says he quoted an Orangeman from England speaking in Boston. In this I will flatly contradict him. No member of the Orange Order ever made such a statement in any part of the world, and if this statement came from some one speaking in Boston it was not from an Orangeman, but some one trying to mislead an audience. He says the Orange Association is careless as to who they admit, and wants to know how I squeezed in. As to the former he better send in his application for membership, and if he is successful I will admit that they are careless. I am not by any means as good as the Order, but the only time that I entirely fell from grace was the two years that I was associating with men who called themselves Socialists and reading their literature. I am very thankful that my cranium is proof against his comical ideas, but if I could arrange words to put common sense into his I would not have the arrangement patented, but would give the world free use of it for the benefit of his kind.

As to whether I have enlisted yet, that information is in the hands of the proper authorities, and it is none of his business, and, further, he will never find me in the white-feather brigade.

He has hit it when he said I was a Conservative. I am glad that he didn't put me in his own class. I am not a hide-bound Conservative however; I have voted Liberal also. I always put Orange principles first, and politics next, when I use the ballot. I never have, and never will, become the tool of any political party, but I will say this: We have two great political parties in Canada, and that is enough. We need them both, and they are today just what the people have made them, and will continue as the people make them. If they don't suit my friend from Scott why does he not use his little influence to bring them to his liking instead of agitating something that, if it ever gets the reins of power, would be the ruin of our country from stem to gudgeon.

He talks about exhibiting his knowledge of Orangeism. He has nothing to exhibit but his ignorance on any subject. He says no man can produce a word he wrote or recall a word he said in denunciation of the army, of the navy, of Orangemen, of Protestantism, or of Catholicism. He must think I have a bad memory, or else very poor understanding. He referred to the soldiers who raided an Austrian establishment in Calgary as a bunch of white-livered hoodlums and fit only to distribute cuspidors to their officers. He referred to the Orange Order as a museum from which the heavens rang with patriotism a few months ago, but were now neutral. He referred to Patriotism, "Is it hunc, or will the wisest of the thoughtless; the man who said it was the last resort of a scoundrel wasn't altogether wrong." As to his Catholicity I leave that to the priest in whose care he is, unless he has broke faith. But Protestantism is denounced in his babbings from start to finish.

I think he should take the Bible (if he dares to), and read the Book of Daniel and the Book of Revelations; then think of the Great Beast, and the image of the Beast, referred to in both books, and ask himself the following questions: 1st. How does the Beast compare with the Roman Catholic Church? 2nd. How does our Socialism compare with the image of the Beast?

Now, Mr. Editor, I am through answering this man's letter. I didn't start out for a row of any kind, but simply in defence of right and justice. I think I have made my stand clear now, and will quit. I wish this man no harm and have no quarrel with him.

I remain, Yours, for British Freedom, JOE ARDELL, (Craig Route) Ponoka, Alta.

I beg to inform you and your readers that I am neither secretary of this School District, nor treasurer of this branch of the patriotic league. Further, I assure you and them (if you will take the trouble to look into the question) that this district has contributed for patriotic purposes, since the outbreak of the war, through the civil service, the railway organizations, and directly by subscription and otherwise, a sum total that will compare with any other school district of equal population in the province. If there is any blame for the subscribers and this district not getting credit publicly for what they have done the blame does not lie with me. Yours truly, JAMES MCNICOL, Blackfalds, May 6th, 1916.

UNITED STATES TO AWAIT RESULTS OF GERMAN PROMISES

Washington, May 7.—President Wilson and Secretary of State Lansing conferred late tonight at the white house on the situation confronting the United States as a result of the latest German note regarding the conduct of submarine warfare.

There were strong intimations in official quarters tonight that the administration might send to Germany a brief communication, noting the new instructions

to submarine commanders quoted in the German note, and informing the imperial government that, so long as these instructions were effective diplomatic relations between the two nations could continue.

It is stated that should another ship carrying United States citizens be sunk by a German submarine in violation of the principles of international law, diplomatic relations would be severed just as soon as the facts were established, and without further exchange of communications.

Teas

The all-important point in Tea-Selection and Blending is to see that each Tea is suitable for the water in the district in which it is to be used. Hardness and softness in water effect its extractive power on Tea. It will be easily understood why it is necessary that the blender is acquainted with the waters used in the district.

All our Teas are carefully selected and blended by us to meet the requirements of the district.

Morningside News

Special evangelistic services are being held in the Church at Fairview, commencing next Sabbath, May 14th, when morning and evening service will be held there. The scholars and teacher observed Arbor Day on Monday. Both the school and the grounds received a thorough overhauling. If cleanliness, order and neatness are conducive to progress, we will expect great things from our school.

Mr. C. Campbell purchased a house and lot from Mr. Witte, and moved in last week.

Mr. J. Lewis is moving out to his homestead this week with his family.

Our town can now boast of having an up-to-date stock-yard. When is the new station coming?

After an absence of two years Mr. Myles has returned to take up his residence here.

Mr. Sutherland is improving his property by the addition of a new fence.

Gull Lake News

Quite a number from here attended the ball game in Bentley on Saturday night between the Y. M. C. A. and the Bentley team, the score being 5-16 in Bentley's favor.

To ease the minds of those who hear a bell ringing in this district during the day, we would state that Gull Lake school has a fine large bell hanging in its tower, while the Canadian Ensign floats on the top. We hope none of the Woody-Nookers will come and steal them away.

Those attending the Gull Lake Sunday School please take notice that there will be no Sunday School held after May 1st.

Mr. Len Beddoes and family, and Mr. and Mrs. Ed. Hansen, were visiting at Mr. and Mrs. H. Hansen's over Sunday.

Mr. Hunt and gang of men are busy improving the road between Lacombe and the Meridian which needs it very much. Their waggons and grader were at Mr. Hutchison's over Sunday.

Blackfalds News

Friday, May 5th, was observed by the pupils and teachers of the Public School as Arbor Day. The preparation of the garden was the leading item on the day's programme.

The play given by the girls of the H. T. C., on Friday evening, was a huge success, being much enjoyed by the large audience. Each girl seemed well suited to the part taken. Special mention might be made of the parts taken by Bessie Sorenson, Pearl Bills, and Jessie Matthias. The music between acts, provided by Miss Keitel and Messrs. Burinson and McCullough, also received special praise.

Farming in this vicinity seems to be progressing favorably. A number have finished seeding oats. The spring wheat appears to have made a fine start.

Mr. Fred Milliken returned on Saturday to take charge of the Blackfalds Presbyterian Mission for the summer. Mr. Milliken spent last summer with us and won respect from all who met him.

Mr. W. H. Schmidt, one of our most progressive farmers to the west of us, marketed as fine a bunch of fat cattle on Monday as we'd expect to see turned off by ever the Experimental Farm.

Several Blackfalds farmers have enough good white potatoes ready to load a car as soon as some good progressive buyer comes along with the price.

As usual, Blackfalds citizens plan on celebrating Victoria Day. We expect to have the Red Deer Citizens Band to keep things lively up. Baseball, football, and the usual other sports, go to make up the day's programme, and a grand ball in the evening, under the management of the B. B. Club, will wind up a grand day's outing.

The Blackfalds Frontiersmen have drill once a week. For day and place see Commander Lawton.

Looking Onward, the standard-bred pacer, with a mark of 2:12, owned by E. J. Connelly, who recently brought him to this district from the State of Illinois, is making the season of 1916 at the Mellis farm, 3 miles N.W. of Rimby.

From all indications the ball team will lose another player. Our baseball team is badly crippled this year.

Mrs. Alwarden, whose serious illness was reported last week, died on Thursday, May 4th. The funeral was conducted by Rev. Dugan at the M. E. Church at Rimby on Saturday afternoon at 3 o'clock. She leaves to mourn her death her husband and six small children. Temporary homes have been found for the five eldest children, and the baby, 8 months old, has a permanent home with Mr. and Mrs. Isadore Uhl.

The Rev. Thomas Bell, Provincial Evangelist for the Pentecostal Church of the Nazarene, will be in Rimby with his big tent to begin a series of meetings on May 21st. Bentley News

Monday, May 8th, 1916.
Weather still cool and unsettled.

Considerable sickness prevailing in the district, seemingly a form of la grippe.

Several of the Lacombe business men have visited this place the past week to view our "Town in Ashes."

The village is re-building as fast as possible, and work on most of the business places has already commenced.

P. E. Thorp has secured the two lots next to the corner, opposite the Alexandra Hotel, and has started the erection of a good-sized garage, nearly double the size of the one burned.

B. E. Williams has purchased the Alberta Feed Barn, and will likely move it across onto his own lots this week.

The new post-office building will be completed this week. Damron's Meat Market, being rebuilt by J. H. Damron, is being held up at the present owing to the frost, but the cement work will likely be started this week and the building rushed.

The adjustment made by the Lilly Adjustment Co. of Calgary, on the 1st, seemed very fair to most of the assured, and prompt settlements are expected.

Mr. Meredith, of Wittenberg; R. Woolgar, O. E. Putnam, and D. B. Palmer, of Bentley, are among the men employed in the building of a bigger and better Bentley.

A picked team from around Bentley played a team from the "Young Men's Class" on the local diamond on Saturday evening, the former winning by a good margin.

C. F. Damron visited at Harry Damron's, at Clive, on Sunday. Hugh McCrostie went to Red Deer on Friday night to spend Sunday with Dr. McCrostie, his brother, at that place, returning Sunday evening.

The Department of Public Works road crew, under W. H. Hunt, has spent the past week grading up the Lake to Lacombe road, and have made a great improvement in same. They are now at work along the 6th meridian, east of Bentley.

EIGHT LEADERS OF IRISH RIOTS HAVE BEEN SHOT

Dublin, May 5, via London, May 6.--It was officially announced today that Major John McBride, the eighth leader of the Sinn Fein rebellion to suffer death by sentence of court martial, has been shot.

The sentences of Thomas Hunter and William Cosgrove, who were sentenced to death with Major McBride, were commuted to life imprisonment.

Joseph Plunkett, one of the leaders in the rebellion, was married an hour before he was put to death to Miss Giffard, sister of Mrs. Thomas MacDonagh, widow of one of the first rebels who was put to death after court martial.

James M. Sullivan, former American minister to the Dominican republic, who has been imprisoned in Dublin Castle for several days on the charge of having been implicated in the Irish rebellion, probably will be released today, it is said by officials.

Immediately after the outbreak of the Irish revolution, German soldiers in trenches opposite the Irish division, fighting on the western front, put up signs inviting Irishmen to join the Germans, according to news received by John E. Redmond, the Irish nationalist leader, from his brother, Captain Wm. H. K. Redmond, at the front. One sign read:

"Irishmen in Ireland are in revolution. English guns are firing on your wives and children. Sir Roger Casement persecuted. Throw your arms away. We give you hearty welcome."

Another sign read: "We are Saxons, and if you don't fire we won't."

The Irishmen replied by playing an Irish air and "Rule Britannia" on mouth organs.

Dublin, May 7, via London.--Countess Georgina Markievicz, one of the prominent figures in the Irish revolt, was sentenced to death after her trial by court martial, but the sentence has been commuted to penal servitude for life. It was officially announced this afternoon. The death sentence upon Henry O'Hanrahan was also commuted to a life term.

Death sentences imposed upon Geo. Plunkett and John Plunkett, brothers of Joseph Plunkett, who was executed last week, have been commuted to ten years penal servitude.

The official statement announcing the sentences and commutations says:

"The following further results of trials by the field general court martial are announced: Sentenced to death but commuted to penal servitude for life by the general officer commanding-in-chief--Countess Georgina Markievicz and Henry O'Hanrahan; sentenced to death, but commuted to ten years' penal servitude--George Plunkett and John Plunkett."

London, May 7.--According to an Exchange Telegraph despatch from Dublin, the death sentence imposed upon Philip Cosgrave, after a trial by the court martial that is passing upon the cases of the Irish rebels, has been commuted to five years' imprisonment.

LONDON PAPERS AND GERMANY'S DESIRE FOR PEACE

London, May 8, (2.20 a.m.)--The London morning newspapers today lay great emphasis on Germany's alleged desire for peace.

"If President Wilson accepts the German note as a basis for further discussion," says the Chronicle, "his motive might be sought, not in the terms which Germany offers, but in the wider suggestion which was expressed by only a hint in the document, but was presumably amplified in verbal communications with the American ambassador. Germany is now at the top of her military achievements. If she can make peace now it would be on terms more favorable than later."

If she can strongly enlist American public opinion that is a great step toward the goal. "In such a situation what the allies' cause needs is a plain declaration by the allied statesmen why no peace negotiations are admissible at the present stage. Public opinion in the allied and neutral countries needs to be clearly reminded of the essential issues underlying the present struggle."

INTERESTING MEETINGS IN RED DEER LAST WEEK

The ranks of the clergy in the Archdeaconry of Red Deer have been somewhat depleted by the war. Nevertheless the meetings held last week were well attended, and of more than ordinary interest.

Early Harvest: Seed Potatoes for sale. Clean sample. Apply by phone or write: N. S. Nelson, Bentley. (M. 10-3c)

interest. In addition to the usual papers on religious subjects, such matters as U. F. A. Sunday, and substitutes for the bar were discussed. The Temperance Committee of the Diocese, of which the Incumbent of St. Cyprian's is a member, met simultaneously.

The Temperance Committees of other Dioceses in the West, and the Alberta Temperance and Moral Reform League, have been consulted in regard to the application of the new Legislation, etc. The Committee felt that the bars themselves might become useful institutions if turned into refreshment rooms. Where this is not done the Committee felt that private individuals, or the churches themselves, should seek to establish some such places. In regard to the enforcement of the Act the meeting felt that it was mainly a matter for good loyal citizenship. Although urging that all should be prepared to co-operate in the matter, the Committee apparently deprecated anything that would savor of detective work on the part of the churches.

A special address was given by an officer of the U.F.A. especially emphasizing the observance of the 21st as U.F.A. Sunday. The close proximity of the day to Rogation Sunday was commented upon. The U.F.A. Sunday is the newest institution of a comparatively new society, while Rogation Sunday, upon which special prayers are offered for God's blessing upon the seed sown, is one of the oldest institutions of the Christian Church.

All present--including the Bishop of the Diocese--thought well of the suggestion, and expressed themselves as willing to co-operate with the U. F. A. in the matter.

GLYCERINE AND BARK PREVENT APPENDICITIS

The simple mixture of buckthorn bark, glycerine, etc., known as Adler-ika, astonishes Lacombe people. Because Adler-ika acts on BOTH lower and upper bowels, ONE SPOONFUL relieves almost ANY CASE of constipation, sour stomach, or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. THE INSTANT, easy action of Adler-ika is astonishing. A. Creighton, Druggist.
